GAME RULES:

Serving:

The server rolls the ball through the serving hole to start the game, after a point is scored, or after a ball is hit off the table.

Scoring:

A ball that enters the goal counts as a point, as long as it was legally scored. A ball which enters the goal but returns to the playing surface still counts as a goal.

Spinning Rods:

Spinning the rods is illegal.

Dead Ball:

If a ball has completely stopped and cannot be reached by any player, it is declared a "dead ball". You may move or tip the table slightly to move the ball and continue play.

How to Win:

You win by being the first player to score 10 points.
