

**LIFETIME LIMITED
MANUFACTURER'S WARRANTY**

The single biggest problem that
hose nozzles have is that
THEY BREAK!

Our nozzle is "BUILT TO LAST."
The **ULTIMATE® HOSE NOZZLE**

is constructed of
**EXTRUDED ALUMINUM,
STAINLESS STEEL,
REINFORCED PLASTIC
AND COMFORT-GRIP SOFT RUBBER.**

We are so confident that you will be
equally impressed with the operation and reliability
of the **ULTIMATE® HOSE NOZZLE**, we are placing a
"LIFETIME LIMITED MANUFACTURER'S WARRANTY"
on this product.

If at any time your nozzle does not operate, contact
H.I.S.C., Inc. for replacement or repair.

Simply return your nozzle
with \$10.95 for return shipping and handling charges.
This warranty gives you specific legal rights and you may
also have other rights, which
vary from state to state.

THE ONLY NOZZLE
YOU'LL EVER NEED

LIFETIME WARRANTY

IMPORTANT:

**DURING THE WINTER SEASON OR FREEZING COLD TEMPERATURES, REMOVE THE
NOZZLE FROM THE HOSE AS RESIDUAL/STANDING WATER CAN
FREEZE/EXPAND AND CAN DAMAGE THE NOZZLE.**

HAPPY WATERING! For maximum water flow,
we suggest you use a 5/8 inch or larger hose!

Soft cascading spray for washing & rinsing vehicle quickly & completely.

Powerful jet stream blasts mud, dirt & debris from vehicle surface, wheel wells & undercarriage.

HAPPY WATERING! For maximum water flow, we suggest you use a 5/8 inch or larger hose!

INSTRUCTIONS FOR PROPER USE AND CARE OF THE ULTIMATE® HOSE NOZZLE

Should your nozzle operate improperly, it may be due to dirt or debris inside the nozzle. If this happens, it could cause the spray pattern to be irregular. Your nozzle is designed for easy cleaning: Simply insert a 5/32" Allen Wrench into the "Hexagonal" screw head of the nozzle. After removing the screw, unscrew the barrel from the hose stem and, if dirty, wash/clean out the debris. Put the nozzle back together in the same fashion as you took apart making sure the "Hexagonal" screw is secured tightly in place. Keeping the nozzle clean will ensure correct operation.

Note: If the lubrication on the black stem and O-rings is removed, re-lubricate with clear silicone grease; available at any hardware store. If your nozzle begins to leak from center of barrel, please contact our Toll Free number: 866-833-4472 for a new O-ring kit.
