SAWTOOTH PICTURE HANGING
Follow these steps for D-ring hangers too.

1 **INSERT MAGNEKEYS**
Remove the MAGNEKEYS and insert into sawtooth or SINGLE-NOTCH PRECISION HANGERS.

(back of frame)

2 **LEVEL & MARK HOLES**
Place removable LEVEL on top edge of the frame. Position and level frame on wall then firmly push directly over hangers to mark your nail holes.
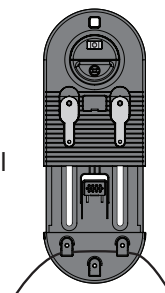

PUSH   PUSH

3 **INSTALL HARDWARE**
Locate the marks on the wall made by MAGNEKEYS. Install nails straight into the wall marks.
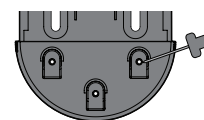

4 **HANG YOUR PICTURE**

WIRE PICTURE HANGING

1 **EXTEND & HOOK**
Press CENTER BUTTON to extend the base. Suspend the frame wire on the BUILT-IN HOOKS, then position and level picture. Use the two, outer HOOKS for heavier frames and the single HOOK for lighter frames.

2 **MARK HOLES**
Pressing firmly against the wall, remove your frame. Locate the removable PUSH PIN (located beneath the LEVEL) and mark nail holes through the hooks.

3 **INSTALL HARDWARE**
Locate the marks on the wall made by the PUSH PIN. Install picture hook hardware.

4 **HANG YOUR PICTURE**

Works with most picture hanging hardware.
