

HENG BALANCE LAMP

Heng Balance Lamp is the RedDot award-winning design of 2016. The lamp is controlled in a unique way: by pulling the lower sphere toward the one that is hanging from the top. The magnetic tension force will keep suspended in mid-air and the lighting element embedded in the frame will turn on.

Contains:

Magnet: 2* 10x10 mm, N35

LED Strip: 5V, 3-4W, Width:6mm / LED Diffuser Panel / USB Cable

Instructions:

1. Magnetic Switch: Pull up the lower sphere. The lamp will light up when the 2 spheres meet in mid-air.
2. Compatibility: The USB cable is compatible with all other adaptors, which can transfer 100-240 V to 5 V.
3. LED Light: The LED last for more than 50,000 hrs.

Product Care:

1. The Heng Balance Lamp is USB powered. It only needs to be plugged into an adaptor with a maximum output of 5V to power it.
2. Pull up the lower sphere gently when switching on the lamp.
3. Place down the lower sphere gently to the top of the base when switch off the lamp, the embedded magnet beneath the surface will properly secure the sphere in place.
4. Avoid high humid and high temperature area
5. For defective claims or replacement within the 2 years manufacturer warranty, please contact DesignNest customer service team for further assistance. Check DesignNest global limited warranty for more details.
