GAME INSTRUCTIONS

HOW TO PLAY:

Once the unit is turned on, the game will light-up. The timer on the game will begin once the sensor under the rim is triggered. Once the game begins the unit will score until the time runs out (after 30 seconds). During this time there is only one player that should be shooting at a time. Once that players turn is over, they will record their score and the next player will start their turn by triggering the unit to countdown. This turn based play will continue until all players have had a turn. After the last player has gone, the player with the highest score will be the winner!

Note:

We welcome you to use your own balls on this set. Please note, the scoring sensor may not pick up darker colored balls.

YOU ARE NOW READY TO PLAY!
