User Manual

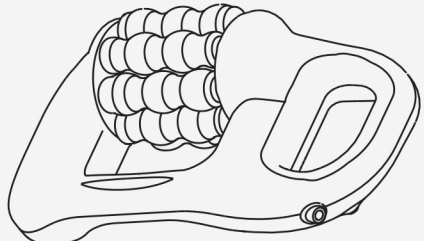

First Time Charging

When using the product for the first time, please insert the charging adapter of the power adapter into the charging port and charge for 3 hours. The power indicator will light up, and the battery is full when 3 lights are shown up. (Please use the original power adapter from manufacture.)

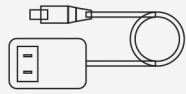

Start Massaging

1. Turn on the switch, the power indicator lights up to show the power level, the massage roller start rotating, the default speed is the third gear, and the corresponding speed indicator is on.
2. Switch the speed control button to increase or decrease the speed level of the massage roller, and set an optimum speed for massage.
3. Turn on the infrared switch, the red light is on, press the infrared switch again, the red light is off.
4. Press the power switch, the massager stops, and the massage ends.

Product Safety and Caution

- Keep product out of reach of children or pets.
- Keep the product away from heating appliances such as oven, microwave, hot cooking utensils, high pressure cooker. This may cause a degradation of the batteries and/or product malfunction.
- Do not use product on heat generating material. This may cause the batteries to overheat and cause malfunction or overheating.
- Do not apply heavy force to the product.
- Do not drop, apply excessive force or heavy weight over massager for it can cause malfunction and/or damages.
- Do not keep or use the product in areas where temperature changes drastically or where humidity is high. This may cause damage to electrical circuits and batteries.
- Do not use the massager with wet hands. Do not insert any object into the charger input. This may cause damage to the product or electric shock.

- Do not clean the product while using.
- Do not use product when it is wet or immersed in water.
- Do not put hand in the gap between the roller and the body during use to avoid finger injuries. Be careful not to get your hair caught.
- Please wrap the roller with massage cover when not use the product.
- The charging time is around 3 hours. Do not charge for a long time. Please unplug the power cord from the socket after charging.

Product Safety and Caution

- Do not take apart, modify or change the parts. This may cause electric shock and the product will no longer be covered under manufacturer warranty.
- Do not use the product other than the usage stated in the manual, for it can cause breakdown.
- Do not use during pregnancy. Pregnant women should consult their health care provider before using a massage tool.

- If you have a pre-existing medical condition including implants or pacemakers, consult with your physician prior to use.
- Do not use if you have blood clotting or are subject to blood clotting.
- Avoid use if you have bleeding disorders, low blood platelet counts and by people taking blood-thinning medications such as Warfarin. Consult with a physician prior to use.
- Do not use on areas of the body with blood clots, fractures, open or healing wounds, skin infections, weakened bones (such as from osteoporosis or cancer) or where there has been a recent surgery.
- Any direct pressure over a tumor usually is discouraged. Cancer patients should discuss any concerns about massage therapy with their oncologist.
- The product does not constitute medical treatment and is not a substitute for a medical examination or diagnosis. If you are dealing with a serious health condition check with your health care provider before using.

Warranty (1-Year Limited)

For your safety and to avoid any property damage, please read this manual carefully and use as indicated.

The manufacturer’s warranty is void under the following circumstances but not limited to:

1. Improper or inadequate maintenance or modification.
2. Accident, misuse, abuse, contamination or other external causes.
3. The use of unspecified adapter and accessories.
4. Loss or damage in transit.
5. Damages that occurs as a result of one’s failure to follow the instructions.

This Warranty does not apply to expendable or consumable parts and does not extend to any product from which the serial number has been removed.
