

KEY|SMART®

TASKPAD

With Wireless Charging

User Manual

FEATURES:

- **EASY TO USE**

Just place your phone on the wireless charging zone to charge, no need to plug and unplug.

- **HIGH PERFORMANCE RESULT:**

KeySmart TaskPad silently charges your phone with or without its case on, and holds the charge level once it reaches 100%.

- **WATER RESISTANT:**

Made of durable PU leather material - protects your desk from scratches, stains, spills, heat, and scuffs.

- **OVERHEAT PROTECTION:**

Exclusive multi-functional intelligent technology provides temperature control and short-circuit prevention for your phone.

- **EASY TO ROLL UP:**

Roll up easily to clean or take it anywhere.

SET UP:

Please use the included Type-C USB cable to connect the KeySmart TaskPad with an adapter 18W or above to turn on the wireless charger.

FAQ:

- Is it normal my phone heat up when charging?**

Yes, it is normal for phone to heat up when charging, especially if there's app running.
- Does it contain a Lithium battery?**

No, this device does not contain a battery. It must be connected to a power supply to use.
- Can my phone be charge anywhere on the pad?**

No, please only put your phone on the charging zone (indicated by the icon). Also, please do not have metallic material and/or thick object between the phone and the charger.
- Will my phone kept on charging if it is full?**

No, the charger will stop charging your phone once it reaches full battery; this will help extend your phone's battery life.
