by **Doctor Pillow™**

Kneading Massage + Hot Compress + Inflatable

5 Specialized Sections

Inflatable height adjustment

Air Hose

Pump to Inflate

Ventilation Button

Reverse side

• Safety of use:

When the heat therapy is turned on, do not cover the pillow with a thick object or mattress with a thickness of more than 2. cm, and do not turn the heat zone upside down for use. The pillow is 2 volts with a maximum heat of 55 degrees. Due to its low voltage, the pillow should be safe even in the event of a short circuit, leakage, or small amount of water.

• Matters needing attention:

1. The product is only for indoor use. Keep this pillow dry while using.
2. Unauthorized modification or disassembly of this pillow will void warranty.
3. This product is not for use by infants or other people who do not have the ability to express when they are uncomfortable.
4. Please consult with a doctor before use if you are critically ill, suffer from blood clots, heart issues or are pregnant.

• DISCLAIMER NOTICES

In the process of the preparation of this manual, we have sought to make the content correct and complete. However, there is no guarantee that there are no errors or omissions in the manual.

We reserve the right to change specifications of the products mentioned in this manual at any time without prior declaration. No part of this manual shall be reproduced, transmitted, transcribed or stored in a searchable system or translated into any other languages without the written authorization of our company. The company is not responsible for the loss caused by non-standard or wrong operation.
