

MAXSA™

PARK RIGHT® Flat-Free Tire Ramps

Maximum load: 5 tons

Dimensions: 21.65"(L) x 14.2"(W) x 2.4"/1.4"/3.6"(H)

Material: Impact PP

Prevent flat spots on your tires with this set of 4 professional grade Flat-Free Tire Ramps.

Storing a vehicle for extended periods of time can cause permanent tire deformation resulting in a lower ride quality for the vehicle. PARK RIGHT® Flat-Free Tire Ramps are designed to disperse weight evenly on tires during storage when used properly. Made from rust free, highly durable and slide resistant material.

On slick floors, the ramps may slide. If so, please contact MAXSA for a free fix.

MAXSA Innovations, 8412 Cathedral Forest Drive, Fairfax Station, VA 22039 Tel: 703-495-0661 www.maxsainnovations.com
