Please see full **USER GUIDE**
for important safety information

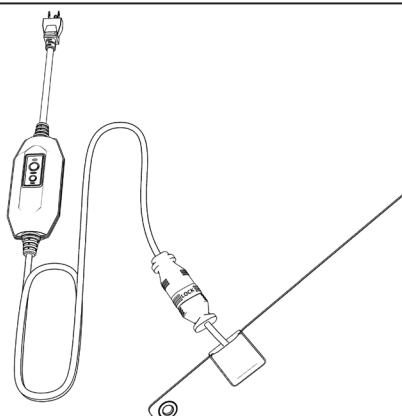

STEP 1:

Align mat connector with
Power Unit connector.

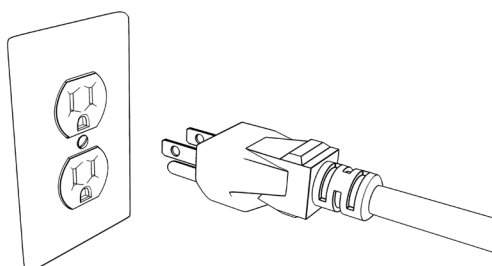

STEP 2:

Plug Entrance Mat into
Power Unit.

STEP 3:

Slide the lock sleeve into
place to ensure a
watertight seal.

STEP 4:

Plug Power Unit into your
outdoor electrical outlet.
Your mat will begin to
warm and melt snow & ice.

NOTE:

Packages should never be left on top of the mats,
especially mats that are turned on.
