FlashLight |DeskLight|

Portable table lamp with removeable light source

Carry the light source
The lamp can be removed from the holder and function as an independent flashlight thanks to its built-in rechargeable 2400 mAh lithium battery.

Versatility
Plug in the light source and turn into a night light or table lamp. Take the light source and turn it into a flashlight. Since it has a built-in battery it also doubles as an emergency light when a fire or other emergency occurs.

Stepless dimming
You can adjust to the brightness you want by pressing and holding the button for 2 seconds. The FlashLight has a qualitative LED-bulb (CREE XM-L2 LED) with a maximal rated brightness of up to 600 lumen. (for reference: a typical LED-headlamp has an output of 100-200 lumen).

hold 2s

USB-C power supply, Console light switch via USB-C
Thanks to its USB-C port you can quickly recharge it without replacing the battery. It will shine for up to two hours at its brightest setting, and up to 72 at its most dim one when not connected to a power supply.
