

Give your pet the superpower of speech!

Go from 'bark' to 'park' and 'meow' to...

Now with PawkieTalkie, your pet is ready for years of communication!

PawkieTalkie

What's in the box

**12 pieces
Recordable Buttons**

**2 Custom Mats
(6 buttons per mat)**

Sticker Labels

Step 1. - Easy-to-use recordable buttons.

To record, gently push the switch to "ON" at the bottom of the button. Next, hold on the black nub for 2 sec. wait for the beep, and record your message. Once your recording is finished, release your finger off the black nub.

Tap the button once to play your customized recording. That's it!

NOTE: For louder volume, record the button near your mouth.

Step 2. - Place buttons individually around your home, or use the foam mat to organize your pet's buttons in one location. This is great for helping your pet memorize the layout. Push the mat from below to remove each button holder from the mat.

Step 3. Apply stickers to label each button for your favorite words and phrases! (Ex. "Play", "Outside", "Water", "Toy")

Tips:

- Practice with them slowly. To help engaged with learning, start with one word or phrase at a time. Motivate & reward them gradually along each step.
- Learning takes time. (Remember when you taught your pet 'sit'? This is similar!) You are modeling language. Language takes time & patience.
- Consistency, repetition and persistence is key. You got this!
- Celebrate the small wins with your pet and have fun with the process!
