

DOCKALL

D115

Fast Wireless Charging Sound Hub

Getting Started

Power the Dockall Docking Station:

First, plug in the included power adapter into the DC Power Port located on the back of the docking station. Then, plug the power adapter into a wall socket. Next, turn the DockAll on by pressing the Power Button located on the back. To power off, simply press the Power Button or unplug the power adapter. It is recommended to power off the Dockall when not in use.

Wireless Charging:

Wireless charging is available for smartphones or devices equipped with a built-in Qi Wireless Charging Receiver or devices enabled through the addition of a third-party Qi Wireless Charging Receiver. Insure your device is compatible by reviewing the manufactures user manual or website. Devices without a Qi Wireless Charging Receiver or receivers other than Qi wireless are not compatible. To charge, place your device vertical or horizontal on the center of the stand. When positioned correctly, your device will begin to charge within 1-2 seconds. Using your device as it charges is not a problem; however it could reduce the time in which to complete the charge considering the process is at a reduced rate compared to typical wire charging.

Wired Charging:

The Dockall has two USB ports which differ in charging power. USB1A(1 AMP) is recommended for charging smaller devices like Smartphones or Mp3 players. USB2A(2 AMPS) is best suited for charging larger items like tablets or laptops. However, either port is capable of charging a device; regardless of its size; the difference would be the time in which to complete the charge could vary depending on the device and/or USB port used. To wire charge, simply connect your USB cable to your device then insert the other end to the appropriate USB port located on the back of The DockAll. Then place your device on The DockAll or to the side to complete the charging process. The DockAll is capable of charging 3 devices simultaneously.

Micro SD Card Slot:

The DockAll's equipped with an SD Card slot located on the back to allow you to listen to music or audio files from a Micro SD card(up to 64GB). To use, simply insert the card into the slot until you feel it "click" into place, the music or files will begin to play once inserted and locked. You can control the Volume, Music, Media selections, Play, or Pause by pressing the appropriate buttons on the front panel. To remove the Micro SD card, push the card in to unlock and release. Micro SD cards are not included with the DockAll but can be purchased separately at most retailers.

Bluetooth

To use the Bluetooth feature, the first step is to pair your device to the Dockall. The Micro SD card takes priority over Bluetooth so make sure the card is disengaged or unlocked prior to pairing. By default, the Dockall is in Bluetooth mode when first powered on. Start by turning on the Bluetooth function on your smartphone, tablet or laptop device. Your device should automatically start searching for Bluetooth devices (if not, press "SEARCH" on your device). Once "Dock ALL" appears on your device screen select "connect" and wait 3-5 seconds to complete the Bluetooth pairing process, no password or code required. A rapid "ringing" sound means your device is out of range or the signal has dropped. Once your device is paired and connected, you can control the volume, tracks, play, or pause from the Dockall's front panel or from your device. Additionally, if using a smartphone you're now set to make phone calls through the Speakers and Microphone.

LED Light

The LED light bar signifies the status of the wireless charging process. As your device charges, the light will remain a constant blue color. The light will turn off when your device is removed from the charging pad.

Product Details: D115

Processor:

- ATS2815

Wireless Charging:

- Supports Qi technology

Wired Charging:

- Supports Full Size USB Cables

2 USB Ports:

- USB1A: 1 AMP
- USB2A: 2 AMP'S

Memory:

- Micro SD Card Slot supports cards up to 64GB (card not included).

Audio:

- 2 X 5 Watt Speakers

Buttons:

- Capacitive Touch

Power Supply:

- 12V DC power adapter (5'ft.) included

Features:

- Two built-in Bluetooth Speakers
- Wireless Charging Indicator Light
- Bluetooth 5.1
- Speakerphone (Microphone)
- Volume/Music Track Control
- Slip Resistant Strips
- Supports compatible smartphones and tablets up to 13 inches
- Fast Wireless Charge feature is compatible with iPhone 11/11 Pro/11 Pro Max/XR/iPhone XS/iPhone XS Max/iPhone X/ iPhone 8/iPhone 8 Plus/Samsung Galaxy Note 10/Note 10 Plus/S10/S10 plus/S20/S20+/S10E/S9 /S9+/S8 / S8+ /S7/S7 edge/S6 edge+ /Note 5/Samsung S6/S6 edge/ Google Nexus 6/5 / 4/ Pixel 3 xl/Pixel 3 / LG V30 /N30+/ LG V40/LG G7/ G6/ G6 plus/ G2 / G3 and all Qi Wireless Cases or Devices.

Limited Warranty - Dockall Docking Station

What the warranty covers:

Azpen offers a limited manufacturer warranty from defects in material and workmanship through normal use during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, Azpen will at its sole option, repair or replace the product with a new or similar product. Replacement product may include re-manufactured, refurbished, rebuilt parts or components. The replacement unit will be covered by the balance of the time remaining on the customer's original limited warranty. Warranty service can only be performed by Azpens' authorized service center. Shipping cost of the product to the service center and liability are the responsibility of the purchaser. In the case of Fraud or Misrepresentation, Azpen reserves the right to deny all warranty coverage or claims.

How long the warranty is effective:

Azpen products are warranted for one (1) year, (365 days) for parts and labor and begin on the original date of purchase. Reconditioned, Refurbished or Re-manufactured products are warranted for ninety (90) days for parts and labor. Out-of-warranty service fees may apply.

Who the warranty protects:

This warranty shall not extend to anyone other than the original purchaser of this product, and is nontransferable. The original dated bill of sale or receipt must be provided as proof of purchase.

Warranty does not cover damage, deterioration or malfunction resulting from:

- Damage which occurs in shipment; delivery and installation; applications and uses for which this product was not intended; altered product; cosmetic damage or exterior finish; accidents, abuse, normal wear and tear, neglect, fire, water, lightning or other acts of nature.
- Incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions.
- Use of products, equipment, services, parts, supplies, accessories, applications, modifications, installations, repairs, external wiring or connectors not supplied or authorized by Azpen.

Limitation of Liability:

In no event, under any cause of action or theory of liability, shall Azpen, its affiliates, distributors or suppliers be liable for any indirect, incidental, consequential or punitive damages, of any nature whatsoever, arising out of the use of or inability to use any Azpen product(s), including without limitation, property damage, loss of value of product(s) that are used in or with Azpen product(s). You agree and understand, Azpen has no liability for any damage, loss of data or destruction to consumer electronics devices or other personal property including, without limitation, cellular phones, tablets, laptops, or other handheld devices. Regardless of the legal theory on which a claim is based, shall limit the recovery of any kind against Azpen not to be greater in amount than the purchased price of the product if any. There are no express warranties other than those listed and described above.
