

# INFINITY MIRROR LIGHT

Set up a spectacular light show in your home with the Infinity Mirror Light. This unique lighting element is a configuration of two or more parallel or nearly parallel mirrors, creating a series of smaller and smaller reflections that appear to recede to infinity. With adjustable brightness and flashing speed, the Infinity Mirror can be customized to match the vibe of any room and every occasion. The remote controlled LED accent light, with its seven colors and 358 light effects, conjures up an ambiance that's straight out of a movie.
