

## Bottle 2.0

1. **Cap** It has a wide mouth design.
2. **Lanyard** Easy transportation.
3. **Thermal Bottle** Double layer vacuum insulation keeps 24 oz of liquid hot or cold for up to 12 hours. The inside is stainless steel grade 314 anti-corrosion.
4. **Cable Storage** The cable and cable storage space are located above the battery.
5. **Removable Battery** 5,700 mAh capacity. Wired and wireless charging give up to two full charges.
6. **Power Button** Turn it on or off.
7. **LED Light** Blinking white light indicates charging.
8. **Charging Ports** Located on the back of the battery.

## Caution

- Careful. The beverage you are about to enjoy may be very hot. Always use caution.
- DO NOT wash the battery. Always unscrew the battery first before washing the bottle.
- If filling with boiling liquid, allow liquid to cool with the cap OFF for at least 3 minutes.
- DO NOT microwave or freeze.
- DO NOT use harsh chemicals to clean the bottle or battery such as bleach, chlorine and / or abrasives.

## Cleaning Instructions

- Wash thoroughly before first use.
- Hand wash ONLY. Remove the battery first, then soak the cap for 10 minutes in hot, soapy water. Wash bottle with warm water and mild detergent. Rinse the cap and bottle before use.
- DO NOT wash or submerge the battery in water.
- Clean the battery with a damp cloth, while the port cover is closed.
- Always store the bottle with the cap removed to allow the parts to completely dry.
