

# LED LIGHT INCENSE BURNER

## Instruction manual

The LED light source is a relaxing, visual beauty, making the home more artistic with a fresh and elegant mood setting and easy to use USB port.

Lighting incense sticks on the incense burner can create fresh air, calm the mood, reduce anxiety, create a pleasant atmosphere, and relieve stress, help improve the quality of life.

The atmosphere created with the smoke that flows down like a waterfall, and with the soft LED lighting, it looks mysterious and beautiful.

Choose your favorite scented incense stick (Not Included), relax with a cup of tea or coffee, and enjoy the mesmerizing fountain smoke visuals.

Light the Incense cone, place it on the top of the large incense burner, then watch the smoke slide down.

Turn on the switch at the bottom of the Led Incense burner, the incense burner will flash a beautiful color.

It's well known that burning incense cones can help meditation and relaxation, relieve stress, and promote sleep.
