

Retro FLIP CLOCK Instruction

Instructions

1. Installing the battery

Open the battery cover and insert battery according to the marks on the cover

2. Time adjustment

Turning the time adjustor on the side by counterclockwise.. It's recommended to set one minute ahead to compensate the clock mechanism (e.g. set time 11:01 when it's 11:00)

Keep accurate time : average monthly difference: $\pm 90s$

Service temperature -10°C - +50°C

Maintenance
