

Oxygen Infusion FACIAL MISTER

01 FUNCTION INTRODUCTION

FUNCTION INTRODUCTION

High pressure oxygen injection

By injecting 95% pure oxygen active ingredients into the basal layer of the skin through needle-free pressure oxygen injection, oxygen and nutrients can be injected into the skin for deep repair and improvement of uneven skin tone, loose wrinkles, pigmentation, and recovery caused by hypoxia. Skin, smoking skin and other problems.

Gentle oxygen spray

The core function of the water light instrument is to use 95% pure oxygen combined with active concentrated ingredients to massage the skin with pure oxygen to improve skin care for various sensitive skins, neurodermatitis, contact dermatitis, eczema, photonism, etc.

Features

1. Negative oxygen ions deeply clean the skin and clear the skin's water absorption channels, improve nutrient absorption, remove oil and acne, cool the skin, activate cells to restore skin smoothness and elasticity, and make sagging, dull skin moisturized and plump.
2. Large molecules are converted into small molecules, and while hydrating, the waste in the skin is exchanged. Nano-ion spray quickly opens pores, removes dirt, and moisturizes directly to the bottom of the skin. It is suitable for any skin type.

02 FUNCTION INTRODUCTION

FUNCTION INTRODUCTION

Painless, traceless and non-invasive

Negative oxygen ions are naturally absorbed by the skin, atomized without needles, and are risk-free and require no postoperative repairs.

Deep hydration

Nanoscale atomization technology makes water molecules smaller and penetrates deeper into the basal layer.

Skin rejuvenation

It can quickly hydrate the skin, make it moisturized and plump, and make it easy to apply makeup.

Firming and wrinkle removal

By being close to the skin, oxygen and nutrients can be injected into the deep layers of the skin, thereby achieving the effect of wrinkle removal and skin tightening.

Suppress acne growth

The stratum corneum is softened, the pores are loosened, and dirt deep in the skin is easier to remove. Suitable for the whole family regardless of skin type. Non-invasive beauty rejuvenation, protecting the epidermis, suitable for all skin types.

Improve skin texture

The surface cells of the skin are replenished with sufficient moisture, effectively improving dullness, and promoting metabolism and blood circulation through vacuum and rapid negative pressure.

03 METHOD OF OPERATION

METHOD OF OPERATION

Water oxygen

Products used: mineral water

Instructions for use:

Put the mineral water into the hydrophotometer bottle, and inject water and oxygen into the human skin quickly through strong pressure.

Oxygen spray

Products used: Mainly water agents, various spray water lotions and rose hydrosol, refreshing and balanced anti-acne lotion.

Instructions for use:

Put an appropriate amount of water-based skin care products into a small cup (water-based skin care products can be selected according to the customer's skin)

Oxygen injection

Products used:

Mainly use essence (essence, anti-allergic repair essence, eye essence, facial essence) to be injected into the dermal layer of the skin

How to use: Choose the appropriate essence for different skin types. Dry skin can have a moisturizing and whitening effect. Oily skin can shrink pores, control oil and refresh.

Usage frequency

Essence, original solution, essential oil and hyaluronic acid introduced 3 times a week
Purified water, physiological water, toner and hydrosol can be used every day for about 3 minutes.

04 PRECAUTIONS

PRECAUTIONS

1. The products used in the hydrophotometer must be water-based products (high-concentration viscous products must be diluted with mineral water).
2. Inject warm water within 50°C and alcohol and spray it once before use (clean the inner wall of the solution bottle).
3. After each use, you must inject warm water within 50°C to clean it again, and spray it for a few seconds (to avoid clogging or leaking of the instrument due to drying of the product).
4. Do not leave the product in the bottle for too long, and put as much as you use (to avoid clogging or leaking of the instrument due to condensation of the product).
5. Use the instrument after it is fully charged. The light will be red when charging and green when fully charged.

Suitable for the crowd

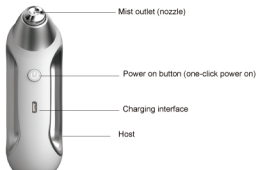

It is completely suitable for skin problems such as dry and dehydrated skin, sensitive skin, roughness, oiliness, blackheads, acne and dullness; it can also be used by pregnant women.

Warm Tips: Please read the Warm Tips carefully before use.

05 METHOD OF OPERATION

The common reasons why the instrument cannot spray water are as follows:

1. There are dirty things in the instrument that have not been dealt with in time.
2. The product concentration is too high (it is best to dilute it to a watery state).

The nozzle cleaning process can be opened by turning counterclockwise from here

Note: Due to supply reasons, please refer to the production batch. If the insertion method of the Langdi interface will be different, apply the solution in the corresponding way and it can be used.

06 AFTER SALES SERVICE

AFTER SALES SERVICE

Hello! Thank you for choosing our company's beauty equipment products. In order to protect your rights and provide efficient after-sales service, please read the following terms and related matters carefully:

1. This product purchased through formal channels enjoys one-year after-sales service from the date of purchase. Any quality problems caused by product manufacturing or material defects are covered by the warranty.
2. When purchasing the product, please confirm that the outer packaging is intact and all accessories are complete.
3. If you have any such problems, please notify our company within the warranty period. Our company will provide after-sales service in accordance with relevant national regulations.

Situations in which the "Warranty Commitment" cannot be enjoyed: After the product is sold, if any of the following reasons causes the product to malfunction or be damaged, our company has the right not to provide services in accordance with the terms of the "Warranty Commitment". You can choose to pay for Serve.

1. The complete machine and components have exceeded the free maintenance service;
2. Failure to use, maintain, and store in accordance with the requirements of the "Instructions for Use" resulting in malfunction or damage;
3. Failure or damage caused by repairs not performed by our company's certified maintenance personnel and its personnel;
4. Altering the warranty certificate without authorization,
5. The product model or number on the warranty certificate does not match the actual product;
6. Failure caused by force majeure;

Product Specifications

Product name	Nano instant fog water light meter	Rated voltage	3.7V
Power supply	Charging/plugging in	Function	Import
Place of use	Household/hospital use	Use	Beauty, skin rejuvenation, oxygen injection and hydration

Product Parameters

Model	JM-096
Shell Material	ABS Plus Aluminum Alloy
Rated Capacity	1100mAh
Rated voltage	3.7V
Rated energy	7.4Wh
Battery diameter(light shell)	18.0+0.3 mm
Battery height (light case)	65.0+0.3mm
Battery weight (Approx)	45.0g
Product weight	About 230gp

Safety Precautions

1. Do not place it upside down or at an angle.
2. Do not place it in a dusty place or expose it to the sun or rain outdoors.
3. Keep away from high temperatures and use organic solvents to wipe the outer casing.
4. In order to completely cut off the power of this product, please unplug the power adapter plug from the wall socket. The mains plug is intended to completely interrupt the power supply to the product and should remain easily accessible.
5. Non-technical personnel are not allowed to disassemble or modify the battery, otherwise it may cause the battery to leak, overheat, burst or catch fire.
6. To prevent fire or electric shock, do not expose this product to high temperature, rain or humid places.
7. Do not use this product near a fire or a heater or other high-temperature places, otherwise it may cause the battery to leak, overheat, burst, or catch fire.
8. If the product experiences abnormal temperature rise, discoloration, deformation, etc. during use, charging, or storage, please stop using it and replace it and contact after-sales maintenance.
