

SOUND REACTIVE RGB+IC FLOW

Sound Reactive Multicolor RGB+IC LED
Flow Effects Light Strip with Remote Control

Operation Manual

MODEL MLB7-2063

V1.0 0522

Introduction

This Multi-color/Multi-white LED strip is easy to install, easy to use, and is ideal for adding ambient backlighting behind your TV or computer monitor for a great movie or gaming experience

Features

- Individual IC-controlled multicolor LEDs create dynamic flowing lighting effects that move up and down the light strip, showing multiple colors at once
- In music mode, the built-in microphone “hears” your music or media and flashes to the beat!
- Use the IR remote control to customize the perfect ambiance with color, brightness, color changing and flashing modes
- Ideal for backlighting your TV or computer, 16.4ft (5m) length fits TV's up to 70"
- 5V 2A USB power adapter included for use in any standard power outlet
- Self-adhesive backing for easy application
- IR remote control works up to 26ft (8m) away, battery included

What's Included

- 16.4ft/5m RGB+IC LED Light Strip
- Power Adapter
- IR Remote Control with battery (1 x 3V battery, CR2025*)
- 1 Set of Mounting Clips and screws
- User Manual x1 pc

Safety Instructions

Please read and understand all instructions before using this product. If damage is caused by failure to follow the instructions, this warranty is null and void.

- Keep these instructions.
- Do not drop, puncture, or disassemble this product.
- Do not expose this product to dripping or splashing of drinks or liquids of any kind.
- Avoid long exposure to direct sunlight, which may cause damage.
- Do not expose this product to open flames.
- Do not use the product in a strong magnetic field.
- Use a clean, soft cloth to clean. Do not use any corrosive cleaners/oils to clean.
- Do not attempt to repair the device or open the unit as this will void the warranty.

Get Started

- 1 Clean the intended surface area before sticking your LED strip
- 2 Peel beginning of adhesive backing off and firmly stick LED Light onto the mounting surface (be careful to peel off only the backing and not the adhesive)
- 3 Peel off more of the adhesive backing as you mount the LED Light, pressing and holding each section firmly against the surface
- 4 Remove the tab from the battery compartment of the remote control
- 5 Connect the LED strip to the locking connection then plug the 5V power adapter (included) into a power outlet

Installation Notes:

- 1 For best mounting results, place adhesive onto desired surface with ONE attempt. Reapplying multiple times will not guarantee secure mounting onto surface
- 2 Make sure the desired location is close enough to a power source like a wall outlet for your power adapter (included)
- 3 For optimal performance, place IR receiver in a location away from the IR receiver on the TV to avoid interference from the TV remote control signal
- 4 For backlighting a TV or monitor, follow the mounting diagram (pg.4):

Optional:

Using the included mounting clips and screws with a philips head screwdriver (not included), install the mounting clips over the LED strip in equal intervals.

TIP: If desired, you can cut the light strip to shorter lengths by cutting on the line specified below. Note: You cannot connect additional light strips to this product.

Operation Manual

MODEL MLB7-2049

V1.0 0722

Controls, at a Glance

IR Remote

①	ON/OFF	Turn the product on and off
②	RESET MODE	Reset to default settings
③	BRIGHTNESS UP/DOWN	Dim and brighten LEDs
④	MULTI-WHITE SELECTOR	Choose between 3 white colors
⑤	MULTI-COLOR SELECTOR	Choose between 12 RGB colors
⑥	COLOR-CHANGING SELECTOR	Select from color-changing modes
⑦	SOUND ACTIVATED MODE	Select from sound reactive modes

IR Remote Operation

The battery for the remote control has already been installed. Remove and discard the clear plastic pull tab before use.

- 1 Turn on the LED Light by pushing the ON button on the remote control
- 2 Select the desired color or the desired effect by pushing the corresponding button on the remote control
- 3 Set the desired brightness using the buttons to increase/decrease the intensity of color
- 4 Push the OFF button to turn off the LED Light

NOTE: For best operation, point the IR remote towards the IR Receiver at the beginning of the light strip.

Changing the remote control battery:

- 1 The battery compartment is located on the narrow side of the remote control, press the release tab inwards and remove the tray
- 2 Remove the empty battery and insert a 3V battery, type CR2025*, with the positive terminal pointing upwards
- 3 Place the battery compartment back in the remote control so it locks in place

* The listed battery type may differ slightly from what is supplied. When replacing the battery, please verify the actual battery size in the remote control.

Cautions for coin / Button cell batteries

- Keep batteries out of reach of small children or those that require supervision. Should a child, or someone, swallow a battery, consult a physician immediately.
- Install the battery with the correct polarity (+ and -).
- Dispose of batteries following your local regulations.
- When discarding batteries, insulate the + and - terminals with a piece of insulating tape. When disposed of improperly, lithium batteries may short and pose a hazard.
- Keep batteries away from direct sunlight, high temperature, and high humidity
