MC0594 Firming Gloves USER MANUAL

PLEASE READ CAREFULLY THIS INSTURCTION BEFORE USING THE PRODUCT

PRODUCT INTRODUCTION

Muscle Electrical Stimulation Gloves is an alternative to the cosmetic apparatus. You can achieve muscle contraction in your face and body with a simple touch of your hand.

With gloves, you can easily process any part of your body and face, even affecting areas that are difficult to access for ordinary devices. The highly conductive material of which the gloves are made provides maximum microcurrent efficiency.

The gloves are cordless they are more convenient and efficient to use

PRODUCT SPECIFICATION

Product Number	MC0594	
Initial Curve Shape	Biphase Square-wave pulse	
Max. EMS Current	50mA	
Pulse Frequency	1 ~ 33.3Hz	
Range of Output Voltage	18.2V – 61.2V Load Resistance 1KΩ	
Li-ion battery capacity	3.7V 60 mAH	
Charging Voltage	5V USB 1A	
Treatment Time	20 minutes auto off	
Intensity	Adjustable from 1~10 Levels of each mode	
Mode	5 modes	
Operation Conditions:	10°C~40°C (50°F~104°F); 30~85% RH	
Storage Conditions	-10°C~50°C (14°F~122°F) ; 10~95% RH	
Charging time	20 mins can last for 1 hour	

TROUBLE-SHOOTING

Problem	Cause	Rectification
No Led Light Up	- Low battery	- Charge the battery
With Led Indication Light But No Feeling	Device is not snapped on gloves firmlyIntensity level at O	 Check that device is connected firmly with both magnetic snap button of the electrode gloves Push M button to turn on the device and press + to increase intensity
	- Microprocessor hang up	 Reset by turn off the device and turn it on after 1 min.
All Button Does Not Work Well	- Microprocessor hang up	- Reset by turn off the device and turn it on after 1 min.
Device Off Automatically	- Low Battery	- Charge the battery
