

How to Play

1. Leprechaun players (or parents) hide the gems

2. Unicorn players search for them

3. Bring the gems back to the Rainbow

4. ...and watch the whole Cloud light up!

We're here for you!

TEAM GAME OPTIONS

Think you've mastered the basic game or want to win as a team?
Divide into equal teams of Leprechauns and Unicorns and choose a game option.
Combine them for advanced rainbow excitement!

Timed Competition

Give the Leprechauns two minutes to hide the lights then clock how long it takes the Unicorns to find them. Swap roles and see how long it takes the other team to find them. Compare times to determine the winner!

Rainbow Order

Only one light at a time can be touched and lights must be placed according to the sequence of the rainbow: purple, blue, green, yellow, red. This means that until purple is found, no other lights can be moved or placed. After that would be blue and so on until finally only red is left.

Double Game

Find two areas to place lights. One team hides purple & blue in one space while the other hides red & yellow. Both teams choose where the green light goes. Count "3-2-1-Go!" and race to get the other team's gems. Put both onto the cloud, then grab the green light to win!
