

How To Transfer Photos + Videos

MOVIDA

Scan code with Phone camera to watch video

1) Plug the provided USB cable to your Movida Video Book and your computer. This will also charge up your Movida video book.

2) Locate the “untitled” drive in your desktop. Open the folders inside this drive and delete all existing files, and empty trash.

3) Transfer your files from your local computer folder to the “untitled” driver’s corresponding folders, copy and Paste, or Drag and Drop

4) For multiple files in one folder name them in a numeric sequence (01, 02, 03, etc.), to play them in a consecutive order.

5) Safely remove “untitled” drive and unplug cable. Your MOVIDA book is uploaded.
