Car Body		1PC	Wheel		4PCS
Wheel cover		4PCS	Small backrest (optional)		1PC
Brake pad		4PCS	Guardrail (optional)		2PCS
Steering wheel		1PC	Big backrest (optional)		1PC
Push bar (optional)		1PC	Charger (optional)		1PC
			User manual		1PC

Disclaimer:

The pictures in the manual are for assembly reference only, please kindly subject to the actual goods.

WARNING:

This is not a vehicle for transportation, the product should be used under adult guidance. Children should be given full instructions before operating the car.
The toy should be used with caution since skill is required to avoid falls or collisions causing injury to the user or third parties.

PRODUCT SPECIFICATIONS

Battery	6V4.5AH / 1.5V*4
Main material	PP
Suitable age	18-35 Months
Weight limit	20kg
Product size	65x29x42cm (no push bar) 79.5x35.5x101.5cm (with push bar)
Runtime	1-2 hours after charging for 8-12 hours, based on ride on conditions
Charger	Input AC 110-220V Output DC 6V-500mA
Fuse	Auto-reset fuse

Retractable footrest (optional)

Press down two small shrapnels which are under the footrest, so the footrest can be retractable.

Retractable footrest and folding swing (optional)

- Retractable footrest function: footrest can be moved left and right between space of upper and lower housing of the baseplate. (Both footrest have this function)
- Folding swing function: When the swing is in the unfolded state, pull down the swing and the lock connecting with the swing, fold the swing to medial side and release it, the swing can be fixed with the influence of spring. If you want to use swing function, please pull inwards the swing and the lock connecting with swing, unfold the wing.

Assembly instruction

Car assembling should be done by the adults.

Take care of small parts. To avoid choking hazard, keep children away while assembling.

Please count all the parts carefully before assembling and dispose the plastic bag properly. To avoid choking hazard, children are not allowed to play with the bag.

1. Battery connection

When it is the first time to use, please open the seat, install 4 pieces 1.5V dry battery or connect two red plugs of the battery.

2.Brake pad assembly:

Attach the brake pad to the front axle or rear axle, insert and push it into place.

3.Front wheel assembly

Turn over the car body, insert the front wheel to the front axle, install the washer and split pin, fix the wheel cover. (Assemble the other wheel with same method.)

4.Rear wheel assembly

Insert the rear wheel to the rear axle, install the washer and split pin, fix the wheel cover. (Assemble the other wheel with same method.)

5. Steering wheel assembly

Match two connectors of the wires from steering wheel and steering column, align the hole on steering wheel and steering column, insert the screw and fix with the nut.

6. Small backrest assembly (optional)

Insert the backrest to the corresponding position of the car body, push it into place.

7. Big backrest and guardrail assembly (optional)

A. Big backrest assembly: Insert the big backrest to the corresponding position of the car body, push it into place.

B. Guardrail assembly: Align guardrail to the corresponding position of big backrest, insert the locking rod to the hole, rotate the guardrail and attach it to the steering column, press down the button to fix it.

C. Push bar assembly: Align the push bar to the corresponding position of big backrest, press down the button and insert the push bar to the hole on big backrest, until the button pop out from the backrest, the position of push bar is fixed.

SECURITY WARNING

1. The installation and charging of vehicle should be under adult supervision at all times.
2. This product is limited to the children from 18 to 35 months, 20 kg weight limit, please do not overload.
3. This product is ideal for driving on a hard flat surface.
4. It is strictly prohibited in the streets or the road, pot holes, and slopes.
5. Avoid driving in the sand or grass or uneven ground.
6. Children should be given full instructions on operation of the car. Improper operation can cause damage or accidents.
7. While children are driving, it is parents' duty to supervise at all time to avoid accidents.
8. Avoid driving in rains or flooded pathways. By doing so it can damage the motor, circuit and other electrical equipments.

9. Battery charger should be regularly inspected by parents to insure whether the wires, plugs, crusts and other components are damaged. Please stop using if any damage is found, until it is completely restored.

10. In order to ensure product life and safety, avoid damage to the charger, battery or electric circuit, the car must use the default configuration of a dedicated charger and power supply.

11. Rechargeable batteries should be removed from the toy before charging.

12. When not in use, please cut off the product power, and keep all the switch to "stop" or "off" position.

13. The charge provided is not a toy. To be kept away from children.

14. Strictly prohibit using the non-manufacturer provided parts.

15. This product is mainly made of PP material, the safe using time is two years.

USAGE DIRECTION

1. Before using it, make sure that all the following works are done.

- Step described in accordance with the instructions to complete the installation of the car, the battery plug-in has been connected, the power supply has been switched on.

- Make sure that all the positions which need the screws are fixed tightly.

- Parents or guardian should ensure that children have taken the safety measures before using.

To reduce the risk during using, pay attention the followings:

When driving the car, child should sit on the car seat.

Adult or parents should take more care and guidance when child driving and can't leave away.

Pay attention to the driving environment and driving on the hard flat surface, not the unsafe environment.

For example:

- a. The trenches, the riverside, slope or uneven ground;
- b. Road or other places for driving and walking;
- c. The obstruction which is easily hitting and causing injury;
- d. Other unsafe zones.

To avoid accident, please use only in daytime or bright place, avoid using under low visibility.

Battery installation

For safety purpose, the charging must be done by adults. When it is the first time use it, please connect the power first. Open the seat, install 4 pieces 1.5V batteries or connect two red plugs of 6V4.5AH battery. If the music can not work normally, please replace the 1.5V battery or charge 6V4.5AH battery.

2. Operating (function reference diagram)

MP3 Optional

CHARGING WAY

For safety purpose, the charging must be done by adults. There are two different specification, so the battery connection way is different. When it is the first time use it, please connect the power first.

1.5V batteries specification: Open the seat, install 4 pieces 1.5V dry batteries.

6V4.5AH battery specification: Open the seat, connect the two red plugs of the battery, use it only after charging 8-12 hours.

If the sound of music or horn is lower than before, please replace the dry batteries or charge 6V4.5AH battery by 8-12 hours, maximum 20 hours. The charging port located under the seat, charging way is shown in the figure below.

1. First insert the plug of the charger into the charging port. (The car can not be operated when it is being charged.)

2. When insert the charger to the power socket.

Attention:

- Can only use the charger and battery according to manufacturers regulations.
- Do not mix old and new or different types of batteries.
- The battery terminal should not be short circuit.
- Do not open the battery or charger.
- Do not reverse the battery.
- Before charging, please check whether the charger, battery and plug are ok, if you find any broken parts, you must stop using it immediately. And do not use it until it is fully repaired.
- The battery will be little warm when being charged, it is normal. If not, it may be caused from the short circuit of charger or circuit board.
- Must use the pressing plate to fix the battery.
- Run out of battery must be handled by adults, remove the battery which has run out from toys to recycle properly and shall not be arbitrarily discard.
- If the product is going to be stored unused long time , it must be fully charged, and charge it every 3 months ,so as to make sure the battery life.
- Charger and Battery are not toys. Keep them away from children.

MAINTENANCE AND SERVICE

1. Before use, parents should check whether all parts like batteries, charger, wires, plug, outer body and other parts are in good condition, check whether the screws are loose and whether there are potential safety hazards. Any damaged parts founded should be repaired before using.
2. After using the product for a period of time, use a small amount of lubricating oil to the moving parts to prevent wear and tear of rust.
3. Keep the car away from fire and direct sunlight. Place it stably, not upside down. The car shall be stored indoors or outdoors under cover.
4. The car should be kept away from hot items, such as stoves or heaters, or the plastic parts will melt. When charging, the car should be kept away from inflammable materials to prevent it from catching fire.
5. Charge in time after use. Charging should be done by adults. If the product is going to be unused for a long time, it must be fully charged. Charge it every month so as to extend the battery lifespan.

6. A soft cloth must be used to clean the car. Do not use chemical solvents to clean the plastic parts. Do not use soap or water to clean the car. Driving in rainy or snowy weather, water can damage the motor, battery and circuit system.
7. When stopping or storing the car, please cut off the power and make sure all switches are in the 'STOP' or 'OFF' position.
8. Do not use fuses different from the specifications of this product.
9. Do not change the product structure and circuit system. Maintenance and repair work must be done under the guidance of the professional or technical personnel in place.
10. Do not use the product for other purposes. Put the battery in the right polarity.
11. Battery negative short circuit is prohibited. Non-rechargeable batteries cannot be charged.
12. Rechargeable batteries can only be charged under the supervision of the adult.
13. Do not mix old and new batteries or different types of batteries.
14. The battery running out of power should be removed from the car properly and not allowed to be played by children.
15. Disconnect the batteries completely when not in use and do not allow children to play with them.

TROUBLESHOOTING

Battery does not charge	If the charger is malfunctioning
	If the battery lost its capacity
	If the charger and battery connection are charged
