- **Remember: Less is More**
- **Using too much powder will produce false results**
- "Go-Natural"® is very unique and micro fine & IS NOT like most powders - a little goes a very long way... so very little is needed to achieve the desired results.
- **"Go-Natural"® activates with your body heat & chemistry:**
 - so you may not see much at first ... usually activates in approximately 3 minutes. You will discover the right amount for you. Experiment a little. Start with a little ... you can always add more. AND ... pay special attention to imperfections you wish to soften such as under-eye circles, blemishes, age spots etc. Circles and swirls with the Go-Natural® brush work well.
- The more you brush & swirl, the smoother the finish - produces a beautiful airbrush finish ... eliminates the need for foundation.
- Blends away imperfections and evens out skin tones. Also neutralizes redness.
- Defines, highlights and contours the cheekbones, for a natural 3 dimensional face lifting effect as well as the brow bone to dramatically open up the eyes.
