taking care of your brushes:

Cleaning your makeup brushes regularly is important. Not only will you get rid of bacteria, it will also prevent your makeup colors from getting mixed. Follow these steps to maintain a sparkling clean set of makeup brushes:

- 1 Run the bristles under lukewarm water.
- 2 Dip the brush into a cup filled with water and baby shampoo.
- 3 Give the mixture a swirl with the brush. If you need to, you can also swirl the brush in the palm of your hand to work up a lather.
- 4 Rinse the brush tip under running water once again. Repeat steps two and three until the water runs clear from the brush.
- 5 Use a lint-free cloth to wipe your brush clean, reshaping the bristles as you go.
- 6 Lay your brushes flat on a cloth to dry.
