IMPORTANT

REMOVE BATTERY INSULATION STRIP LOCATED ON THE REAR OF YOUR POCKET ZOOM BEFORE FIRST USE.

BATTERY INSTALLATION

Should the light on your Pocket Zoom become dim/not function, the batteries should be replaced. To do so, simply slide the battery cover away from the Pocket Zoom's body. Remove the old batteries and replace with 2 new CR1220 button cell batteries; the batteries should be installed with the positive (+) anode facing toward you. Once installed, replace the battery cover and slide closed.

USE

To use the Pocket Zoom, simply place it over the object to be magnified and move it up or down until the object comes into focus. Push the round button located below the magnifier to activate the LED light; it will remain on while depressed.

Daily Drug Dispenser

We have included a daily drug dispenser in your RX Storage Case. The dispenser can be filled with your daily pills and supplements; each slot is marked with a day of the week.
