## WHAT'S INCLUDED

## INSTALLING BATTERIES (for LED Power)

- Locate and flip open Battery Door.
2. Install 3x AA batteries following correct polarity shown in the compartment.
  3. Close Battery Door until it snaps into place.

## USING THE LANTERN

After properly installing batteries, press the Power Button to turn on the LED Lantern light.

1st press: ON/HIGH mode

2nd press: LOW mode

3rd press: Strobe Emergency mode

4th press: OFF

# BATTERY STORAGE

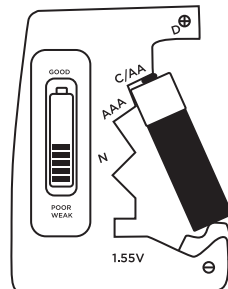

To store batteries, slide open latch on Battery Storage compartment door, and open. For best results, place batteries in compartment positive side up. Close and secure door when done.

You can store 23 AA batteries, 17 AAA batteries and (2) 9V batteries.

# BATTERY TESTER

Remove Battery Tester from storage compartment.

2. Based on battery type/size, place bottom/negative side of battery on tester side marked with “-”, and insert top/positive side into corresponding position, as seen in drawings.
3. Display will show charge level remaining in battery. If level is in yellow or red section, consider disposing tested battery and replacing in intended device. If display remains blank, battery should be disposed and replaced.

# WARNINGS

**WARNING: DO NOT MIX OLD AND NEW BATTERIES. DO NOT MIX ALKALINE AND STANDARD (CARBON ZINC) BATTERIES, OR RECHARGEABLE (NICKEL CADMIUM) BATTERIES. DO NOT TAMPER WITH BATTERIES. Replace batteries Ensuring proper polarity, with the correct battery type, and as a simultaneous set. DO NOT REVERSE OR MIX THE DIRECTION OF THE BATTERIES. DISPOSE OF BATTERIES PROPERLY.**

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
