

Nano Protective Case

USER GUIDE

- Thank you for purchasing Outin Nano Protective Case.
- Please read the manual carefully before using the product.
- Please keep the instructions safe in case you need to use them again in the future.

Customer Service: Support@outin.com

The Nano Protective Case offers optimal protection for your electric espresso machine on-the-go. Constructed of sturdy EVA and lined with felt fabric, this case helps protect against wear and tear. An integrated capsule box and carrying handle enable convenient portability, allowing you to take your machine with you anywhere.

How to use:

1. Open the zipper and place the Outin Nano coffee machine along with the coffee cup into the compartment securely. Insert the portable capsule or powder container into the tray slot.
2. Other accessories such as the charging cable, user manual, etc., can be placed in the zippered pocket or beneath the tray.
3. The Nano Basket Plus accessory can also be stored in the zippered pocket or beneath the tray for easy carrying.
4. Ensure that the zippers are fully closed before carrying the case to prevent accidental opening and potential damage to the contents inside.

Note: The entire bag, both inside and outside, is not waterproof.

Please do not submerge it in water or any kind of liquid.

Clean and Maintenance

Clean the exterior of the case with a soft, damp cloth. DO NOT use harsh chemicals or abrasive materials.

DO NOT place the protective case in washing machine or dishwasher.

Warning:

Avoid placing heavy objects on top of the protective case, as excessive pressure may deform the case and damage the coffee machine inside.

DO NOT attempt to open and repair the product by yourself, as this will void the warranty.

DO NOT expose the case to extreme temperatures. Prolonged exposure to high heat or freezing conditions may compromise the material's durability and affect the performance of the Nano espresso machine.

DO NOT drop or subject the case to strong impacts, as this may damage the coffee machine or other stored accessories.
