

CANDY LAND[®] x cricket's ^{co.} CANDY
creations

Craft Candy Land-Scapes

INSTRUCTION

1. Sort bags by Candy Land-Scape into 4 piles.
*Note each land's numbers are their own color for sorting ease.
2. Cover each board with clear plastic wrap.
3. Match the number on each component to the corresponding number on the land's board.
4. When applicable, white frosting/edible glue is to be mixed in small bowls with coordinating food coloring before applying to board. For example: King Kandy's Candy Castle bag 1a will be mixed with food coloring labeled 1b. The colored frosting will then be ready for use as edible glue.
5. Use the edible glue to affix the color-coded lands' candies to their coordinating number until all the candies have been used and the Candy Land-Scape has come to life!
6. Eat, enjoy, and share your candy creation!
