

RETRACTABLE LEASH WITH FLASHLIGHT

Adventure-ready safety for every walk. Glow Trek™ combines a smooth retractable leash, built-in LED flashlight and waste-bag holder into one compact, easy-to-use tool.

KEY FEATURES

LED Flashlight

Integrated forward-facing beam helps you see and be seen on early-morning and nighttime walks.

16 ft Retractable Leash

Smooth belt feed with one-hand brake and lock gives your dog freedom while you stay in control.

USB-C Rechargeable

Built-in rechargeable battery. Just plug into any 5V USB power source between walks.

All-In-One Design

Comfort handle, leash, flashlight and waste-bag holder in one compact unit.

MAIN COMPONENTS

- Comfort handle & housing
- LED flashlight & power button
- Brake button & lock slider
- Retractable belt outlet
- Swivel hook for collar or harness D-ring
- Waste-bag compartment

Glow Trek™ by AVANTO — Walk safely, night and day.

GETTING STARTED

1. ATTACH & PREPARE

Install waste bags: Place the roll into the holder and feed the first bag through the slot.

Clip to your dog: Attach the swivel hook securely to your dog’s collar or harness D-ring.

Check the belt: Make sure the belt is not knotted, frayed or wrapped around anything.

2. FREE MOVEMENT

Hold Glow Trek by the handle only. Never grab the belt.

Let the belt extend and retract naturally as your dog moves.

When slack forms, the belt will automatically retract back into the housing.

3. BRAKE & LOCK

Brake: Press and hold the brake button with your thumb to slow or stop belt movement.

Lock: While holding the brake, push the lock slider forward to fix the belt at that length.

Release: Pull the lock slider back to return to free movement, then release the brake button.

Tip: Use the brake and lock to keep your dog closer in crowded areas, near traffic, or when passing other dogs.

4. GUIDING YOUR DOG BACK

Gently press the brake and step backward to invite your dog toward you.

Once your dog turns and starts coming back, relax the brake slightly so the belt can retract.

Repeat as needed to keep your dog at a safe distance.

5. USING THE LED LIGHT

Press the flashlight button to turn the LED on before dark or low-light walks.

Point the light in front of you to illuminate your path and improve your visibility to others.

Press again to switch off when you no longer need the light.

Use Glow Trek as a walking tool only. Always supervise your dog while the leash is in use.

POWER, CARE & SAFETY

6. CHARGING THE FLASHLIGHT

Locate the USB-C charging port and open the protective cover.

Connect the supplied USB-C cable to the port and plug the other end into any 5V USB power source.

Indicator light **red** = charging, **green** = fully charged.

Battery & Light Specs*	
Charging	USB-C, 5V
Typical runtime	Up to several walks per charge (varies by mode and temperature)
Operating temperature	Approx. 14°F – 113°F (-10°C – 45°C)

*Values are approximate and may vary with use, temperature and charging conditions.

7. CARE & MAINTENANCE

Wipe the housing and belt with a soft, damp cloth as needed.

Do not machine-wash, soak or submerge the leash in water.

Keep the belt free of sand, dirt and sharp edges that may cause wear.

When not in use, fully retract the belt into the housing and store in a dry place.

IMPORTANT SAFETY WARNINGS

Never touch, grab or wrap the belt around your fingers, hands, arms, legs or body.

Do not use with dogs that pull aggressively, lunge at people or traffic, or are stronger than the leash rating.

Keep children away from the leash and do not allow them to operate it.

Avoid using the leash when cycling, skating or in busy, high-speed environments.

Inspect the belt, hook and housing regularly. If any part is frayed, cracked or damaged, discontinue use and replace the leash.

This product is intended for walking dogs only and is not a tie-out device.

Limited Warranty

Glow Trek™ is warranted against defects in materials and workmanship under normal use for a limited period from date of purchase. Damage caused by chewing, misuse, impact or modification is not covered.
