

- The RiderStack mount attaches magnetically to most golf cart canopy pillars. Fits left and right side.

Inserting and removing your phone from the mount

1. Adjust the phone holder arms wide enough to set your phone in by turning the adjustment knob counter-clockwise.
2. Place your phone in the mount. While keeping the green lever in the down position, turn knob clockwise until the holder is snug on the phone, but not fully tight.
3. Flip the green lever and your phone will release from the mount. Your phone can be secured and released using only the lever for quick access.

- **To Install:** Make sure you place the mount snug onto the corner of the canopy pillar for the most secure hold!

- 2 magnetic attachment points are included on the mount. Attach and stack your most-used items with the full lineup of Method Golf accessories!

- Folds compact and designed to fit inside your golf bag pockets.
