

Feeding for Two — No More Food Fights.

No more hunching, better digestion

Elevated bowl helps relieve neck strain and avoids stomach pressure - making digestion smoother and more comfortable.

5° Comfortable eating, natural swallowing

The 5° tilt gently angles food toward your cat's mouth - no awkward bending, just an ergonomic feeding position.

Offline Feeding with Dual Power

Powered by USB and backup D-cell batteries,
supports feeding even in power outages
(up to 180 days offline).

*Data sourced from Lab.

Stay connected, stay in control

App-controlled remote feeding,
offline auto-dispensing,
and scheduled meals ensure constant care.

Remote interaction

Remote video and voice interaction, 24h live broadcast.

Intelligent capture

Record pets' movements at anytime.

Night vision

Smart Feeding Just the Right Posture

Elevated & Angled Smart Feeder Series F24

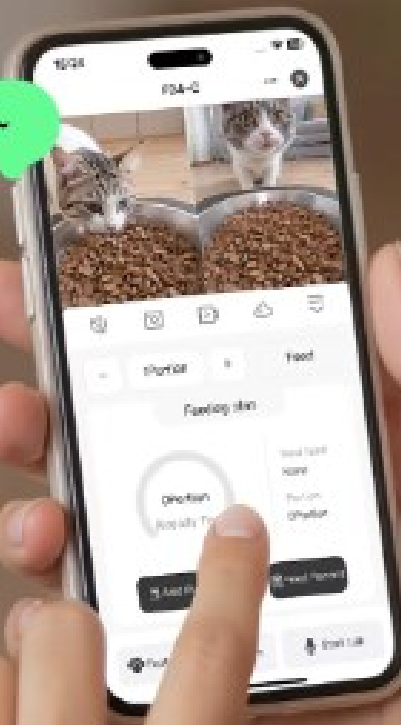

Say Hello, Even When You're Away

Use two-way talk or a recorded 10s message to call them to dinner – your voice keeps them company while they eat.

meow~

Hey , come over for some yummy food!

Works with 5-15mm kibble

Compatible with dry food, freeze-dried, and mixed grain without clogging or jamming.

**No clogs,
no interruptions**

The impeller automatically
reverses to keep feeding smooth.

Sealed & Dry, Every Bite Fresh

Desiccant slot + airtight lid keeps kibble crunchy, tasty, and moisture-free.
