

Self Clean Pet Spray Brush

- Anti-static
- Avoid flying Hair
- Detangling

Experimental data:
Bacterial growth in 1ml of water after one week of residual

Water Type	Bacterial Growth (cfu/ml)
Pure Water	3700 cfu/ml
Tap-Water	54800 cfu/ml
Plain Boiled Water	10w+ cfu/ml

Note: Be sure to add **pure water** when using, not only avoid bacterial growth but also to prevent the nozzle internal parts from being clogged or corroded by many impurities, etc., which may shorten the life of the spray brush.

- Large caliber Easy water filling
- Transparent Design Easy to observe
- Large capacity 55ml tank

Uniform and fine spray

Prevents static and flying hair

- Anti-static
- Avoid flying Hair
- Low Decibel
