

STAKE™

Intelligent Digital **TRULY** Wireless FOOD THERMOMETER

INTRODUCTION

STAKE™ is a wireless food thermometer that gives home chefs real-time updates of the temperature inside the meat to avoid under cooking or over cooking and ensures perfect results every time. It connects to the STAKE™ APP via Bluetooth. You can read the real-time updates of the internal temperature of the meat from your phone, giving you the best results at your fingertips.

IMPORTANT NOTES *(Please read this carefully before use)*

This product is exclusive for cooking meat/food in grill or oven. It should only be used as described in the User Manual

(please go to visit our website maverickthermometers.com).

DO NOT TOUCH STAKE™ WITH BARE HANDS JUST AFTER COOKING. Always wear oven gloves to remove STAKE™ from the meat after cooking.

It is required that STAKE™ be inserted properly into the meat/food prior to cooking. Do not expose the metal part of STAKE™ to the heat generated by oven directly.

Do not use STAKE™ in a microwave oven.

STAKE™ can be cleaned and washed but do not immerse it in water.

This product is not intended for use by persons with ages 12 and under.

Make sure the mobile phone is within 30 ft from the STAKE™ during cooking. The bluetooth range varies depending on cooking environment. It will be shorter if STAKE™ is covered by a metal case.

There is a built-in Overheat alert in the STAKE™ APP to prevent the overheating of STAKE™. When the measured temperature is higher than 100°C or 212°F, the Overheat Alert will be triggered. Take out STAKE™ from the heat source with oven gloves as soon as possible

The supplier will not be liable for any damage of STAKE™ due to misuse of the device.

Do not expose the metal part of STAKE™ to the heat generated by oven directly.

It is required that STAKE™ be inserted properly into the meat/food during cooking.

GETTING STARTED

CHARGE THE STAKE™

Put STAKE™ into the charger and close the cover.

Connect the charger to a USB power source, such as power bank, USB adapter or USB socket of PC/notebook etc. with the USB cable.

LED light of the charger will turn on and is flashing during charging. It will turn off when STAKE™ is fully charged.

Insert STAKE™ into the charger

Take out from the charger

DOWNLOAD THE MOBILE PHONE SOFTWARE APP (STAKE BT30)

Go to the website by scanning the QR code in the right-hand side and download the STAKE BT30 APP.

TURN ON BLUETOOTH AND LAUNCH THE STAKE™ APP

After launching the APP, it will automatically search for STAKE™ and show the corresponding reading as shown in diagram on the right-hand side.

- | | |

| 1 Current Temperature | 6 Temperature view |
| 2 STAKE™ ID | 7 Cooking Records |
| 3 Target Temperature | 8 Sharing |
| 4 Cooking Status | 9 Setting |
| 5 Battery Level | |

STAKE™ IS READY TO USE NOW !!!

Remarks : You can change the setting of the APP by tapping at the bottom.

USING STAKE™

HOW TO COOK A MEDIUM SIRLOIN STEAK WITH STAKE™

1. Clean and charge STAKE™
2. Insert the STAKE™ fully into the sirloin steak with the metal tip located at the center of the steak
3. Pre-heat the oven and launch the STAKE™ APP
4. Go to the Cook Setup by tapping the temperature shown on the Available Probes page. Select (Beef), (Sirloin), and (Medium)
5. Put the steak with the STAKE™ into the oven
6. Tap the "Start Cook" button
7. STAKE™ now is closely monitoring the status of the steak
8. When the steak reaches medium, the STAKE™ APP will prompt you to take it out from the oven.
9. Take out the STAKE™ with oven gloves and now you have a delicious medium sirloin steak! Should you want to know more functions of the STAKE™ APP please read the full user manual in more details Just go to maverickthermometers.com

REGULATION & COMPLIANCE

For information regarding Regulation and Compliance (e.g. FCC ID), tap the setting icon at the bottom and select "Regulation & Compliance". For more details, please go to maverickthermometers.com

FCC COMPLIANCE STATEMENT

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

RF exposure statements

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSSs. Operation is subject to the following two conditions:

- 1) This device may not cause interference, and
- 2) This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure Statement: This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment.
